

Need a new & exciting way to present stranger awareness to your students?

Schedule a program that your students will find stimulating, educational, and lots of fun.

Stranger Smart© Program

Experts agree that the message of stranger safety is more effective when accompanied by extensive role-play. This simple program offers a high rate of audience interaction and participation that children love. They will focus on the message and retain it.

Grades K-6

Ages 6-12 years

Stranger Smart© Program

“The program is a valuable service to our community. The method of repeatedly summarizing each critical point and allowing the kids to practice the skills with different scenarios are most effective in driving the message home.

Dodie Lore, Divine Child

“I am very proud of my son. He was approached by a stranger and he immediately knew what to do. He took two big steps back for every step the stranger took toward him.”

Donna Smith, Livonia parent

**Ambrose Academy's
Children's Safety Programs
28239 Plymouth Rd
Livonia · 48150

Rocco Ambrose, owner & chief instructor of Ambrose Academy Children's Safety Programs.

*Tao of Wing Chun Do, a non-profit 501c-3 teaching institute and organization.

This **anti-abduction program** is disguised as an entertaining and fun program to teach youngsters the tools for dealing with strangers. We teach school children the importance of recognizing and avoiding the ploys strangers use to entice children. More importantly, we teach children to recognize situations that could put them at risk, and what to do about them.

Children learn best from doing. Experts agree that the message of stranger safety is not as effective unless the message is accompanied by extensive role-play. Our program offers plenty of opportunities to role-play, helping children recognize potentially dangerous situations using the **“5 Steps to Safety.”**

Our presentation begins with a visit from a “stranger,” Mr. Rocco Ambrose. He presents the “5 Steps to Safety” with role-play for each step. The children put the steps together when presented with various ploys and scenarios. Plenty of applause and support from their friends creates an exciting atmosphere of learning. Stranger Smart© brochures available for take home.

- Presentation: 50-55 minutes
- One or several grade levels or as an assembly depending on school's demographic and needs.
- May be scheduled as a field trip to our location.
 - Nominal fee* (to cover expenses only)
